

We have opened our **first four** Flu Clinics for our **established patients** to schedule their flu shot. During the first two clinics we will vaccinate our high risk\* patients and their siblings, all subsequent clinics are for all established patients.

Patients who already have a well child visit scheduled in the next few months may receive their flu shot at that visit.

Additional clinics will be opened for scheduling as soon as we receive the next shipment of vaccines.

**New patients**, who have not seen a physician at Children's Health Partners, should call and schedule a "nurse only" appointment during regular business hours, so we can do a quick review of your health history prior to your vaccination. Please provide your child's vaccination records to the office before or at that visit.

FLU VACCINES WILL BE GIVEN AT THE FOLLOWING CLINICS:

Saturday, September 14, 2019	9am-Noon	For High Risk Patients & their Siblings
Wednesday, September 18, 2019	5pm-8pm	For High Risk Patients & their Siblings
Saturday, September 21, 2019	9am-Noon	Open to all patients over 6months of age
Wednesday, September 25, 2019	5pm-8pm	Open to all patients over 6months of age
Saturday, October 12, 2019	9am-Noon	Will open to all patients asap
Saturday, October 19, 2019	9am-Noon	Will open to all patients asap
Wednesday, October 23, 2019	5pm-8pm	Will open to all patients asap
Saturday, Nov 2, 2019	9am-Noon	Will open to all patients asap

\*High Risk patients include patients with asthma, heart disease, lung disease, diabetes, etc or patients who are immune suppressed or who live with infants under 6months or others who are immune compromised.
